**Subject:** EPA Inspection Report - Hanover Foods Corporation PA0044741

Mr. David Still,

Please find attached the U.S. Environmental Protection Agency's (EPA) inspection report outlining observations from the Clean Water Act evaluation of the Hanover Foods Corporation facility (1486 York Street, Hanover, PA 17331). The report includes information gathered related to the on-site inspection that occurred on February 4, 2021.

You are encouraged to read the report carefully. If you believe any of the information is inaccurate or if you would like provide supplemental information regarding the observations in the report, as well as any onsite changes that you have made or plan to implement (in addition to the information you have already provided us), you may provide a written response by **March 31, 2021** to be included in EPA's files.

EPA inspection reports do not contain compliance determinations (i.e. whether or not a violation occurred). The observations outlined in the report will be reviewed by EPA to determine if any follow-up actions are necessary. This inspection report and any other information gathered by the EPA may be used in making a compliance determination with federal regulations.

A reply to this email would be appreciated so I know that you received it. If you have any questions, please feel free to contact me.

Best,  
Amanda
